## Your monthly purchase limit:

To avoid any misunderstanding we would like to draw your attention to the following facts regarding your monthly purchase limit.

1. Your monthly purchase limit applies to all purchases made with your card(s) from the 16<sup>th</sup> of the month to the 15<sup>th</sup> of the following month.
2. Your monthly purchase limit does not increase automatically if you deposit additional amounts into your Koopkrug account. If you require an additional purchase limit, you will have to notify us well in advance to ensure its availability.
3. Should the purchase amount exceed your available purchase limit, the system can decline the transaction. Then it is up to the supplier's personnel to obtain authorization for the purchase. Save yourself the embarrassment by confirming the available balance beforehand.
4. Unfortunately it does sometimes happen that a transaction is declined due to technical difficulties. Please be patient and allow the supplier's personnel the opportunity to help you.

We are committed to brisk, accurate service and would like, if possible, to ensure that your purchase facility is sufficient. By keeping us up to date with any changes in your personal details, you make our task so much easier. Your co-operation is appreciated.
