However, purchases from the convenience store situated on the same premises, if it is a contracted Koopkrag supplier, will qualify for our annual bonus.

## PURCHASE CARD TRANSACTIONS

*How does it work?*

Your purchase card is swiped through the Point-of-Sale-terminal at the paypoint.

The POS terminal contacts the Nedbank Card System to determine whether or not sufficient limit is available to make the purchase.

If you have sufficient limit available the Nedbank Card System will approve the transaction, if not, the transaction will be declined.

If the transaction is approved, the POS terminal will print a payment slip that has to be signed by the card holder. This transaction has been concluded successfully.

It is only when a transaction is unsuccessful, whatever the reason may be, that a human becomes involved. Then the transaction is also dependant on this person's level of service. Avoid the inconvenience by ensuring that you have sufficient available limit before making a purchase. Contact our offices at (012) 348 5452 (during office hours) or use our SMS facility.

*say what?*

Being wrinkled wasn't one of the dreams I had growing up.

Don't take life too seriously, nobody survives it anyway.
